## **How-to-Measure Information for Men and Women**

*Use a cloth tape measure to determine your correct size.*

**Neck** — Measure a shirt that fits you well. Lay the collar flat and measure from the center of the collar button to the far end of the button hole. The number of inches equals your size.

**Belts** — If between “even” sizes, order the next larger size. Order 2" larger than your waist size.

**For Chest/Bust Size** — Measure just under the arms, completely around the back and across the broadest part of the chest area. Hold tape firm and level.

**For Women’s Hips** — Stand with heels together and measure around fullest part of hips.

**Sleeve** — Measure from the center of the collar (in the back), across the shoulder and down the sleeve. Number of inches equals sleeve length.

**Inseam** — Take a pair of uniform pants (not jeans) that fit you well. Measure (to nearest inch) from the crotch seam to the bottom of pants.
