TO: SOUTH FLORIDA STATE COLLEGE

DISTRICT BOARD OF TRUSTEES

FROM: THOMAS C. LEITZEL

SUBJECT: TEXTBOOK AFFORDABILITY

1004.85, F.S. (Textbook and Instructional Materials Affordability) was amended during the 2016 Legislative Session to require posting of the local cost and identifying Information of at least 95% of all textbooks and instructional materials required and recommended for each scheduled class at least 45 days (was 30 days) prior to the start of each upcoming term. Follett, our bookstore partner, has worked closely with our faculty and staff to ensure compliance with this requirement for Fall Term and will continue to do so for all upcoming terms.

Additionally, the amendment requires each college to review variances in the cost of textbooks and instructional materials required for each course by course section and the percentage of textbooks and instructional materials that remain in use for more than one term (can be used or resold by the student) and to share the results with academic department chairs and program staff for review. The goal is to reduce the cost of required textbooks and instructional materials per course section.

The following was determined during the examination of textbooks and instructional materials by course and course section for all general education courses offered during the 2016-17 Fall Term:

- For on-campus courses: No variances in textbook and instructional material costs were noted between on-campus course sections of the same course.
- For online courses: While online course section requirements differed from comparable on-campus course sections, no variances in textbook and materials cost for online course sections were noted.
- 100% of textbook adoptions are in place for more than one term.

- Due to the requirement of an "access code", workbook, or similar one-time use component, actual continued use of the entire package for more than one term is not available to students for 15 courses.
- Purchase of only the one-time use component is an option in most cases, allowing the student to reuse or resell the more expensive textbook and provide for purchase of only the access code or other one-time use material for a future term.
- Of the 248 required and/or recommended textbook or instructional materials listed for all course sections, 191 can be utilized for more than one term, which equates to 77%.
- 20 members of our faculty are currently using Open Educational Resources (OER) as the primary textbook for their courses, generally at no cost to the student.
 Approximately 1,275 students have benefitted from the use of OER during the past year, resulting in estimated cost avoidance of \$125,480.
- South Florida State College adheres to internal Procedure No. 4041, which dictates
 use of adopted textbooks and instructional materials for a period of at least three
 years or until the edition changes, whichever occurs first.
 - Each department chair is integrally involved in the textbook and instructional materials adoption process for each course. A report of the review/findings has been sent to each department chair/program manager to ensure awareness of our efforts to reduce instructional costs for students while maintaining extremely high academic integrity. The full report and analysis is available for review in the Controller's Office.

SUGGESTED MOTION:

Move to approve the report of Textbook and Instructional Materials Affordability as required by 1004.85, F.S. as presented.
