

## DENTAL ASSISTING SELECTION PROCESS

- Once applicants have completed all steps in the admission process and have been found to meet the minimum requirements for admission, they are accepted based on the date they submitted their online application to the Dental Assisting program.
- The first 12 applicants are accepted.
- In May successful applicants receive an email that explains how they may reserve their seat.
- Any unclaimed seat is offered to the next qualified applicant.
- Once all seats are claimed, an email is sent to applicants who were not accepted.
- Consult the [College Catalog](#) for more information about the ranking and selection process.
