Have you had a positive test for COVID-19?

YES, I TESTED POSITIVE

FOLLOW CDC GUIDELINES
1. Quarantine by staying at home.
2. Monitor your symptoms and seek medical care if necessary.
3. You can be around others after:
   • 10 days after symptom onset (or test date)
   • AND the resolution of fever for 24 hours without the use of fever-reducing medications
   • AND with the improvement of other symptoms
   • OR when cleared by a medical provider or retest
5. Notify your supervisor and Don Kesterson (ext. 7336) or Keith Loweke (ext. 7219)

NO, I DID NOT TEST POSITIVE

Have you been in contact with someone who has been diagnosed with or tested positive for COVID-19?

YES
- Yes, close contact (physical contact or contact within 6 feet for a total of 15 minutes or more over a 24-hour period, with or without a mask)
- If you are fully vaccinated.
- Practice social distancing, good hygiene, wear a mask, and watch for symptoms.

NO
- Yes, non-close contact (outside 6 feet or within 6 feet for a total of 15 minutes or more over a 24-hour period.)
- Practice social distancing, good hygiene, and wear a mask.

Watch for symptoms AND quarantine for 10 days, or 10 days after symptom onset and the resolution of fever for 24 hours without the use of fever-reducing medications and with the improvement of other symptoms, or until cleared by a medical provider or retest.

Notify your supervisor and Don Kesterson (ext. 7336) or Keith Loweke (ext. 7219).

Symptoms include:
- Fever or chills (over 100.4 F or 38 C) (Without having taken any fever-reducing medications, such as acetaminophen or ibuprofen)
- Loss of smell or taste
- Cough
- Muscle or body aches
- Sore throat
- Shortness of breath
- Fatigue
- Headache
- Nausea, vomiting, diarrhea, or loss of appetite
- Congestion or runny nose

Revised 9/8/21
