Discover the Art of Mosaic — just in time for Valentine's Day!

Come create beauty, piece-by-piece as you design your own unique masterpiece.

Each tile you place reflects your personal touch — the image shown is just one example of what's possible.

The Impact of Art Classes

Art classes in rural communities enrich culture, inspire creativity, and strengthen community connections.

- Art in schools and community spaces enhances learning, sparking critical thinking and problem-solving skills.
- Creative expression plays a vital role in **early childhood development**, supporting fine motor skills, language growth, emotional expression, and early literacy.
- Local art programs attract tourism, support local artists, build community pride, and boost mental well-being.
- Creative exploration builds confidence, belonging, and a shared sense of place.

The Story Behind "Art Lab 27"

- Art + Education: The logo blends a beaker and paintbrush, symbolizing learning, exploration, and creativity through art.
- "Lab" reflects hands-on discovery a place to learn, explore, and experiment with many art mediums.
- Three Colors: Art Lab 27 uses SFSC's Orange and Blue with Green as an accent across the Highlands, DeSoto, and Hardee campuses and the Lake Placid Center. The palette also honors our community schools Blue for DeSoto, Orange for Hardee, and Green for Lake Placid.
- 27: Honors Florida as the 27th state on March 3, 1845.

Local Fun Facts about "27"

- Lake Placid was originally known as Lake Stearns. In 1927, Dr. Melvil Dewey, creator
 of the Dewey Decimal System, petitioned the Florida Legislature to rename the
 town. Following his efforts, the name was officially changed to Lake Placid.
- **U.S. Highway 27** runs through the town, serving as a major north–south route stretching from **Miami** to the **northern states**.
- Lake Placid boasts 27 freshwater lakes.
- Art Lab 27 began right here at the SFSC Lake Placid Center on Oct. 18, 2025.
